

# **ALYA PROTECT-T**

## **Transparent Protection**

## **DESCRIPTION**

It is modified silicone emulsion resin based; clear, bright surface protector -finishing polish, used for internal and external purposes

### **PROPERTIES**

ALYA PROTECT luster the surface after ALYA WALL or ALYA ROOF Thermal Insulation and Waterproofing Coating materials, to increases the surface waterproofing and resistance to weathering factors

#### **APPLICATION SURFACES**

Used on ALYA WALL and ALYA ROOF Coating layers.

## **APPLICATION**

•Apply with brush or a roller on the surfaces at least 6 hours after ALYA WALL and ALYA ROOF Coating application.

## **PHYSICAL PROPERTIES**

Brightness Bright

Colour Clear

Solid Matter 30±2% (by weight)

Density 1.02 gr/cm<sup>3</sup>

Application Tools Roller or Brush

Spraying pressure 40 Bar/580 psi

Nozzle Diameter 0.021"-0.027"

Flash Point None

## ALYA PROTECT-T

## **Transparent Protection**

#### CONSUMPTION

1.2-1.3 kg/m² according to the type, absorbency and structure of the surface to be applied, controlled sample shall be performed for accurate consumption rate

#### **DRYING TIME**

(at 20 °C, 65% HR)

Touch drying 1 hours
Over Coating
Full Drying 24 hours

Note (Drying time may be extended at a higher

level of relative humidity and low temperature).

#### **STORAGE**

2 years in its unopened package, in cool and dry place protected from frost and direct sunlight

#### **QUALITY AND ATTENTION**

Alya Chemical products are crafted within a management system that is independently certified to meet the standards of quality, environmental responsibility, and occupational health and safety as outlined in ISO 9001 and Alya Chemical ESHQ recommendations.

The properties listed are derived from controlled laboratory tests.

® = A registered trademark of Alya Chemical in various countries
